From system builds, to fully functional, tested turnkey systems (using Celestica or third-party platforms), we can manage all stages of your project.

The 100kWh rack-mounted C& I energy storage system provides safe, efficient, and expandable power for various commercial and industrial applications. Modular rack design allows flexible capacity ...

This complete energy storage commercial solution combines a energy storage converter with a high-voltage rack battery system--configured to deliver reliable performance across varied environments.

We provide comprehensive, turnkey solutions for all data center asset upgrade and lifecycle projects. Our project methodology, shaped by our operational mindset, ...

The new EcoStruxure Pod Data Center and EcoStruxure Rack Solutions are now available globally. Organizations are deploying AI clusters ...

In 2026, liquid cooling is mandatory for 100kW AI data centers. Learn how key partnerships are solving the power crisis and shaping the future of cooling. Discover more.

As AI workloads push rack densities past 100 kW, data centers must master both structured cabling for data flow and liquid cooling for heat removal. ...

RakworX's Prefabricated Smart Modular Data Center (MDC) is an energy-efficient, high-performance solution with natural air cooling for a PUE as low as 1.1. It's a fully contained, adaptable data center ...

The joint initiative offers a competitive and future-proof solution: an industry-first integrated, on-site power generation system paired with modular data center construction. This approach enables data ...

100kWh Data Center Rack Turnkey Project

Our Turnkey Data Center Solutions Portfolio delivers end-to-end services and technologies designed to provide scalable, energy-efficient and secure ...
