“To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, ...

Standardized and scalable design for long-lasting, intelligent energy storage. Compact footprint with high single-cell energy density. Single cabinet footprint ...

Helping to minimize energy costs, it delivers standard conformity, scalable configuration, and peace of mind in a fully self-contained solution. The battery ...

It meets the application needs of regional power grid peak shaving, frequency regulation, voltage regulation, emergency response, new ...

The Unified Energy Storage Cabinet can provide a reliable and efficient energy storage solution for renewable energy systems, including solar and wind power. ...

Our energy storage cabinet, evolved through four generations of R& D since 2009, is built to address diverse industrial and commercial energy demands. It proficiently handles peak shaving, virtual ...

Eliminates the need for the giant cranes typically used for large 50-ton block storage, simplifying shipping and logistics. Installs faster than competing AC storage systems. Maximizes density, initially ...

Our commercial and industrial energy storage system delivers scalable and robust energy management solutions. Designed for high-demand environments, it enhances energy efficiency, reduces ...

The Modular ESS series consists of energy storage with a high energy density and many cycles (8000) placed in cabinets up to 10MWh.

10MWh Intelligent Energy Storage Cabinet for Tunnels

The USCS-10000IM delivers 5MW of continuous power with 10MWh of storage capacity through the world's first independently certified immersion liquid cooling technology.
