Oregon utility Portland General Electric (PGE) said yesterday that together with power producer NextEra Energy it plans to construct and connect a 300MW wind park, 50MW solar farm ...

Finnish renewables developer Winda Energy Oy has announced its first energy storage initiative, an industrial-scale 30-MW/60-MWh battery project in the Finnish municipality of Rautavaara.

Once complete, the project is expected to have an installed generation capacity of up to 30MW, which would deliver about \$150,000 (\$202,208) in annual community benefits annually. ...

The Texas Waves II Energy Storage (30MW / 30 MWh) system, currently under construction, is co-located at the Pyron Wind Farm in Scurry County, Texas. ...

LinkedIn fam, imagine a single battery system that can store and discharge clean energy for over 4 days straight -- enough to bridge multi-day gaps in renewables and keep massive AI data ...

This project aims to improve the efficiency of local wind power utilization and enhance the stability and flexibility of the power grid, playing a key role in the regional renewable energy ecosystem.

The battery storage facility, with a power output of 30 megawatts (MW) and a capacity of 60 megawatt-hours (MWh), is Winda Energy's first energy storage project. Construction is scheduled ...

Mingyang's 30MW unit -- which is at least twice the size of the previous record holder -- is part of a renewable-energy storage project in Inner Mongolia

OX2 develops and sells wind and solar farms and energy storage solutions. By constantly increasing access to renewable energy, OX2 is ...
