As energy costs keep climbing, 30kW modular systems offer the flexibility businesses need. Whether you're expanding production lines or securing power for new cell towers, scalable storage solutions ...

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO4 battery bank to provide safe, efficient, and reliable power storage.

Integrate the full range of core products, covering energy storage, charging piles, power protection, and other fields, providing detailed specifications and technical parameters

Efficient, Reliable, Sustainable: All in One ESS Battery 30kW / 60 ~ 90kWh ESS-GRID DyniO is a high-efficiency, high-reliability all-in-one battery system developed mainly for small and medium-sized ...

MGSB is a new range of secure integrated hybrid micro-grid solution. With diesel generator, Battery storage and solar Inverter in one secure unit. MGSB is ...

The CTECHI 30KW 60KWH energy storage system is an ideal solution for diverse energy needs across commercial buildings, small islands, microgrids, farms, villas, and data centers.

With flexible PV capacity configuration, it improves microgrid system availability, making it ideal for remote areas and islands with weak power infrastructure. The inverter's robust load adaptability and ...

Its all-in-one design simplifies installation and operation, while advanced energy management ensures high efficiency and reliability. This 30KW lithium battery ...
