ENGIE has awarded NHOA Energy the contract to supply, commission, and provide long-term services for a new 80 MW / 320 MWh ...

With our battery projects, we are putting this strategy into practice, contributing to a sustainable economy. By Q4 2027, Engie will operate 380 MW ...

“With this new battery park, we are strengthening our current position as the Belgian reference in flexible energy generation and storage.

Battery growth in Europe will be curbed by permitting and market challenges in the coming years and developers remain dependent on Chinese suppliers.

Today, on November 14, 2025, ENGIE has started commercial operation of all 320 lithium-ion battery containers of its Vilvoorde Battery Energy Storage System (BESS) in Belgium.

The main energy storage project in Belgium is the construction and operation of an offshore "energy atoll" (essentially a manmade offshore pumped-storage facility), for which the Electricity Act has been ...

ENGIE and NHOA have confirmed a partnership to build a 320 MWh battery energy storage system (BESS) at Drogenbos, Brussels.

The project marks a significant new milestone in expanding the collaboration between NHOA Energy and ENGIE, as it follows the ongoing construction of the 400 MWh Kallo BESS, ...

The solution combines an integrated battery-and-energy management architecture with continuous monitoring and digital-twin-based analytics to optimize performance, reliability, and lifetime.

The second and final phase of this 200MW/800MWh battery energy storage project is set to connect to the

Brussels new energy storage enterprise

grid by the end of 2025. The two-phase development is set to enhance grid stability and provide ...
