International Power Supply (IPS) has officially launched Factory X1, marking the opening of Bulgaria's first battery energy storage system (BESS) gigafactory.

International Power Supply (IPS) has begun production at its 3 GWh battery factory near Sofia, with plans to expand capacity to 5 GWh by the ...

IPS, a Sofia-based manufacturer of power conversion technologies and turnkey energy storage solutions, expects to reach 5 GWh of annual battery ...

From battery modules and packs to distributed liquid cooling systems, mechanical structures, enclosures, electronics, battery management ...

Bulgaria approves funding for 31 battery energy storage projects totaling 4 GWh under the RESTORE 2 program.

The innovative Bulgarian project for the production of energy storage batteries BG EXERON X-BESS has been granted strategic status under the ...

The newly updated Bulgaria BESS Market Outlook 2025-2034 highlights both the opportunities and challenges that will shape this sector over the next ten years.

BG EXERON X-BESS is a system for electric energy storage in batteries, developed based on patented technology by International Power ...

Summary: Bulgaria is emerging as a key player in energy storage innovation, particularly in supercapacitor production. This article explores the country's technological advancements, market ...

Bulgarian home energy storage battery production

International Power Supply (IPS) opened its Factory X1, with a capacity of 3 GWh per year. It is the first gigafactory in Bulgaria for battery ...
