We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our ...

Beyond mounting the solar panels on the roof of the container on delivery, NO wiring or assembly is required to have your own storage, living space or workspace ready in just a few hours.

However, energy usage varies for every household, so the best approach is to design a custom off-grid solar kit based on your specific energy usage patterns. ...

Ready to Order Your Solarfold(TM) Solar Container? ?Reach out now for a customized energy solution consultation and quote designed exclusively for your needs. Get detailed specs and pricing for ...

A complete solar-battery-generator power plant pre-built into a shipping container. We integrate the inverter/chargers, lithium batteries, DC charge controllers, switchgear, ventilation/air-conditioning, ...

Our team holds active electrical licenses across multiple states, manages large-scale commercial solar installations, and understands the real-world demands of off-grid power systems.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

Using your daily energy usage and Peak Sun Hours, and assuming a system efficiency of 70%, the calculator estimates the Wattage required for your ...

Our off-grid shipping container homes offer a unique opportunity to create a self-sufficient, personalized haven designed to fit your needs. From innovative floor ...
