Use Sketchfab to publish, share and embed interactive 3D files. Discover and download thousands of 3D models from games, cultural heritage, architecture, design and more.

Visualize orbits, relative positions and movements of the Solar System objects in an interactive 3D Solar System viewer and simulator.

To maximize your solar PV system's energy output in Guatemala City, Guatemala (Lat/Long 14.6419, -90.5133) throughout the year, you should tilt your panels at an angle of 14° deg;

So far, we have conducted calculations to evaluate the solar photovoltaic (PV) potential in 5 locations across Guatemala. This analysis provides insights into each city/location's potential for ...

Huld, T.; Gracia Amillo, A. Estimating PV Module Performance over Large Geographical Regions: the role of Irradiance, Air Temperature, Wind Speed and Solar Spectrum.

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general ...

To help us visualize the distances between the objects of our Solar System, let's build a scale model in a virtual city so we can get a better sense of the scales and distances between...

Interactive Solar System Model. Toggle Orbits (O) · Planet Name. Diameter:- Distance from Sun:- Orbital Period:- Fun Fact:-

Online 3D simulation of the Solar System and night sky in real-time - the Sun, planets, dwarf planets, comets, stars and constellations
