From flood-resistant battery racks to smart energy management software, Guyana's emergency power infrastructure is entering a new era. The right storage solutions don't just keep lights on - they keep ...

With our team working on-site around the clock, focused on meeting international quality standards and the arrival of the BESS, the project moves ...

The project is a central component of Guyana's push to lower energy costs and emissions by replacing heavy fuel oil (HFO) with natural gas for electricity generation.

Solar and energy storage system integrator CS Energy said last week that it has been selected by an unnamed independent power producer (IPP) to work on a hybrid DC-coupled 5.1MW solar PV power ...

As Guyana positions itself as a Caribbean energy leader, this EPC project demonstrates how electrochemical storage can transform national grids while supporting sustainable development goals.

Greenberg Traurig, LLP represented Eolus, a Swedish renewable energy developer listed on Nasdaq Stockholm, in connection with the sale of Roccasecca, its stand-alone battery energy ...

The Latin America and Caribbean-focused bank is supporting the Government of Guyana with the deployment of the eight solar PV farms with a ...

Guyana's landmark Gas-to-Energy project reached a critical milestone with the arrival of a 30-MW backup battery energy storage system at Georgetown's John Fernandes ...

Guyana has unveiled a new 0.65 MW grid-forming solar project, paired with a 1,500 kWh battery energy storage system (BESS) and a 13.8 kV ...

Guyana Independent New Energy Storage Project

The project consists of five independent solar power plants distributed across three administrative regions of Guyana, with a total installed capacity of 18 MW and an energy storage ...
