-----

In just 30 months, Sacyr has built the most important healthcare facility of the last 30 years in Mexico, and the most modern in Latin America: Tlaxhuac Hospital, in Mexico City.

The project successfully generated energy savings, greenhouse gas reductions, and lower energy expenditures for cash-strapped municipalities and hospitals.

At C& D, we're a global leader in energy storage and conversion systems, providing high-quality, cost-effective solutions for uninterruptible power supply, ...

The objective of the paper is to use these insights to provide recommendations of energy storage policies that could be implemented in Mexico to support the clean energy transition.

Explore high voltage battery packs, wall mounted lithium batteries, and ESS cabinets from Hoenergy -- your 2025 Global Tier 1 Energy Storage Provider.

Future wind and solar energy projects in Mexico will be required to colocate battery energy storage systems equivalent to 30% of their capacity, a senior government official told the ...

Thanks to the country's geographical conditions, Mexico has great potential for solar and wind energy, which makes it an ideal candidate for the implementation of energy storage systems to ...

DESRI, in collaboration with El Paso Electric (EPE), has announced the start of construction on the Santa Teresa Solar and Storage project after reaching financial notice to proceed (FNTP). ...

Discover how battery energy storage ensures uninterrupted power for hospitals, protecting critical loads and enhancing energy resilience with ...
