---

The panel dimensions translate to approximately 21.7 square feet of area, producing 18.5 watts per square foot - an excellent power density for optimizing roof space utilization.

The popular Jinko Eagle 72 Series modules we supply are virtually the same as Jinko Cheetah solar panels yet made in the USA with premium Diamond solar ...

JinkoSolar PV modules are designed to combine top-tier performance with outstanding reliability. Thanks to its cutting edge technology and the strong ...

About Jinko Solar  
Jinko Solar Panel Cost  
Jinko Solar Panel Models  
Jinko Solar Panel Efficiency  
Should You Buy Jinko Solar Panels?  
A solar energy system built with Jinko solar panels typically costs around \$2.60 per watt. That means a 6 kilowatt (kW) Jinko system will cost you about \$16,000 before incentives. For reference, an average solar panel installation costs about \$18,000. Compared to other Tier 1 solar brands, Jinko Solar is much cheaper without sacrificing quality or ...
