With 16 years of R& D experience in industrial and commercial energy storage, we proudly present our 4th-generation energy storage cabinet. Designed to meet customized needs, it excels in peak ...

Standardized and scalable design for long-lasting, intelligent energy storage. Compact footprint with high single-cell energy density. Single cabinet footprint ...

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh ...

Thermal management into one compact outdoor cabinet. It simplifies installation, reduces engineering costs, and enhances system reliability compared to traditional separated solar + battery systems. ...

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO4) ...

The 10-year manufacturer's warranty provides additional security for investors and operators, ensuring a reliable and long-lasting photovoltaic energy storage solution over the long term.

By combining solar generation with intelligent energy storage, the ESS100 transforms renewable energy into a reliable, flexible, and cost-efficient resource for commercial and industrial facilities. The ...

The 350kWh All-in-one C& I Energy Storage Cabinet features a highly integrated design with built-in BMS, EMS, and PCS. Supporting off-grid and grid use, it cuts energy costs, boosts efficiency, and ...

Long-lasting photovoltaic integrated energy storage cabinet for drilling sites

The Symtech Solar Battery Energy Storage Cabinet (MEG 100kW x 215kWh) is a fully integrated, PV-ready hybrid energy storage solution designed for both on-grid and off-grid applications. Built with ...
