The holistic solar project tracker covers 100+ number of under construction, announced/proposed, pre-construction solar PV projects across all countries of Middle East.

ENGIE and Masdar, a global leader in clean energy, announce they have reached financial close for the Khazna solar photovoltaic project, with an ...

Test results in the white paper highlight that at JA Solar's manufacturing base in the Fengxian district of Shanghai, the DesertBlue modules achieved a 7.09% power generation gain ...

While it is projected to reach its full capacity of 5 GW by the end of this decade, the current operational capacity of over 2.6 GW already positions it ...

Advances in solar module mounting structures, tracking systems, and battery storage are reducing the Levelized Cost of Electricity (LCOE), ...

Explore 10 renewable energy projects in the Middle East, showcasing solar, wind, and battery storage advancements set for 2025. Read more here.

MESIA is the only non-profit solar association in MENA, uniting industry leaders and supporting solar growth through reports, events, and networking.

Discover our solar projects in the Middle East and Africa: 115 MW installed, 80+ projects with carports, rooftops, or ground-mounted systems

WFES 2026 clearly signaled a strategic shift in the Middle East solar market. While utility-scale projects remain important, the momentum is rapidly ...

The International Energy Agency (IEA) reports that solar PV, together with wind, could account for 95% of

global renewable expansion by 2028.
