-----

A dispute over concentrated solar power (CSP) technology is behind years of delays to Morocco's biggest planned solar project after problems at ...

Set against the arid backdrop of the Sahara's gateway, this solar giant does more than generate energy, but is building a model for clean ...

It describes the country's solar plant as a "world-class utility-scale solar complex" and an example of how Africa can attract private capital to power its clean ...

Located in southern Morocco, Noor-Ouarzazate is one of the largest concentrated solar power plants in the world, with a total capacity of 582 ...

Morocco's Noor Ouarzazate solar complex remains one of the most emblematic utility-scale solar deployments globally. This massive project was ...

The aim of the Moroccan Solar Plan is to reach 2 GW (14% of the expected installed power by 2020) of solar generation capacity by 2020, with an ...

Here, thousands of mirrors reflect the sunshine up at a spectacular tower, featuring a unique molten salt system that allows energy to be stored for up to 8 hours. We explore how this has helped...

The NOORo III central tower solar thermal power plant with heliostats and salt receiver has a gross production capacity of 150 MW and a storage system with ...
