NYSEG provides electric and natural gas services to customers in communities throughout New York state.

Welcome to National Grid, providing New York and Massachusetts with natural gas and electricity for homes and businesses.

This story map was created with the Story Map Series application in ArcGIS Online.

This is the Energy Report Card (ERC) for 2022 for Grenada. The ERC also includes sectoral data and information on policies and regulations; training and capacity building; and related areas.

OverviewHistoryDescriptionNorth American Electric Reliability CorporationInterconnectionsProposed improvementsThe electrical power grid that powers Northern America is not a single grid, but is instead divided into multiple wide area synchronous grids. The Eastern Interconnection and the Western Interconnection are the largest. Three other regions include the Texas Interconnection, the Quebec Interconnection, and the Alaska Interconnection. Each region delivers power at a nominal 60 Hz frequency.

The power grid was established in the country nearly 135 years ago in Lower Manhattan. Now the state is preparing for a major overhaul of the system.

During the winter storm, New York's dual-fuel power plants, which can switch to oil generation when gas is scarce, helped stabilize New York's grid ...
