With a total installed capacity of 79,882 kilowatt-peak (kWp), the plant generates 120 million kilowatt-hours (kWh) of electricity annually. The ...

Fortis Energy said it hired Pomega Energy Storage Technologies (PESS) to install a lithium ion battery energy storage system (BESS) of 62 MW ...

North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski.

For North Macedonia to achieve its renewable targets, power lithium battery storage isn't optional - it's essential. From solar farms to industrial complexes, these systems provide the flexibility and ...

Battery licensing begins as 60 MW milestone nears, and 4 GW of storage proposals await review. North Macedonia has issued its first two ...

In North Macedonia, the focus on household energy storage using lithium batteries is growing due to the country's goal of achieving 42% renewable energy by 2030.

Discover how North Macedonia is leveraging lithium battery technology to transform energy storage systems and support renewable energy integration. This article explores applications, market trends, ...

In a recent landmark auction, the North Macedonian government received 44 bids for battery storage projects, totaling an impressive 4.2 GW of capacity. This ambitious move is a ...

The battery storage system is expected to enhance the plant's efficiency by storing excess solar energy and improving grid stability. It is scheduled to begin operation in the second half of 2025.
