Senegal and sustainable infrastructure developer Africa REN have commissioned the Walo Storage facility in Bokhol, marking the first grid ...

ERS is a Senegalese energy developer and producer which is controlled by Moustapha Sene and Senegal's national electricity company, Senelec. Teranga ...

Construction of the battery energy storage system is expected to commence in early 2024 at the Tobène substation in Thies and is expected to become operational in 2025. Once complete, it ...

With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.

At an anticipated size of 40 MW, which will provide 175 MWh of energy, the battery energy storage system (BESS) will be one of the largest of its kind in the West African region.

Imagine a world where renewable energy flows seamlessly, even when the sun sets or the wind stops. That's the promise of advanced battery energy storage systems (BESS) in Senegal. In this article, ...

Independent power producer, Africa REN, has commissioned a 20MW of solar PV power plant with a 10MW/20MWh battery energy storage system (BESS) in Senegal. Named the Walo Storage project, ...

As Senegal accelerates its renewable energy adoption, wholesale energy storage batteries have become vital for stabilizing power grids and supporting solar/wind projects.

The on-time commissioning of Walo Storage demonstrates our ability to support Senegal's energy transition using cutting-edge technology. It is also a key milestone in our ambition to build ...
