We can connect you with electricity, gas, broadband fibre, district heating and district cooling. Contact us, see out FAQ and read about our company.

Today is the kick-off for what is becoming the largest solar park in Sweden. The plant is located near Säve airport and is part of a major investment in solar ...

GLASHAUS POWER - Looking for reliable mobile power solutions in Scandinavia? Discover how Gothenburg-based manufacturers are revolutionizing outdoor energy systems with eco-friendly designs.

Summary: Gothenburg's new wind and solar energy storage project aims to tackle renewable energy intermittency while supporting Sweden's 2030 carbon neutrality goals. This article explores the ...

Explore how the 220vEK energy storage system addresses Gothenburg's industrial and residential power needs while supporting Sweden's renewable energy transition.

Researchers at Chalmers University of Technology in Gothenburg, Sweden, have achieved a groundbreaking milestone by creating a solar energy capture and storage system ...

In this blog post, we will explore Solar cells Gothenburg (Solceller Göteborg) industry, the challenges and opportunities of solar cell installation, and how solar power is becoming more ...

Despite its potential for solar power generation, Gothenburg's climate presents some challenges that could impact energy production efficiency from photovoltaic panels.

IEA PVPS Task 1 has released the National Survey Report of PV Power Applications in Sweden 2024. According to the report, 41,395 new PV systems were connected to the Swedish electricity grid in ...

Solar power supply for the gothenburg power system in sweden

mers University of Technology Abstract The aim of this thesis was to evaluate the possibilities of tackling the constant changes in the market for frequency ancillary services from batteries, both .
