-----

The very first inverters were created using motor-generators as a way of creating AC electricity during World War 2. Redi-line was one of the first and most ...

In 1991, Germany's SMA developed and produced the first inverter with its excellent power electronics technology. The prosperity of the European ...

The Sunplus Hybrid Storage Inverters are designed to increase energy independence for homeowners and commercial users. The Hybrid Inverter ...

The first inverter, known as the "inverting transformer," was patented in 1886 by Nikola Tesla. However, the modern inverter, which is capable of converting DC power to AC power, was ...

SMA Solar Technology (Germany): Founded in 1981, SMA became one of the first major manufacturers of grid-tied inverters. Their work in the 1990s and early ...

In 1953, the German company Kaco manufactured the first thyristor inverter, which was a significant advancement in inverter technology. Kaco further innovated with the production of the first ...

Rectifier Circuits are bridge circuits. The "Graetz" circuit (Leo Graetz, 1897) was developed nearly 30 years prior to Prince's inverter. The Graetz circuit was associated with Nodon (electrolytic) rectifier ...

Since early transistors were not available with sufficient voltage and current ratings for most inverter applications, it was the 1957 introduction of the thyristor or ...

1995 marked the birth of our first photovoltaic inverter - the Fronius Sunrise. Further milestones were reached with the IG inverters, which were available from 2001 ...

## The earliest inverter manufacturer

Earliest Inverter Manufacturer SMA Solar Technology (Germany): Founded in 1981, SMA became one of the first major manufacturers of grid-tied inverters. Their work in the 1990s and early 2000s set the ...
