Whether on offshore platforms, for fracking trucks, mobile drilling rigs, or FPSO units, our container solutions are designed for optimal use under demanding conditions.

I'm interested in learning more about your Wind-resistant photovoltaic energy storage container for South American oil platforms. Please send me more information and pricing details.

This study presents a novel Offshore Mooring and Power Platform (OMPP) that integrates Platform-to-Ship systems to electrify anchored and bunkering ships, significantly reducing ...

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy ...

Ideal for use in renewable power plants. Powered by lithium-ion batteries, this portable product is ready to supply reliable power in challenging situations. It ...

The present work reviews energy storage systems with a potential for offshore environments and discusses the opportunities for their deployment. ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...

ABB's containerized maritime energy storage solution is a complete, fireproof self-contained battery solution for a large-scale marine energy storage.

This research assesses the environmental feasibility of using wind-solar energy for offshore oil and gas platforms in the Caspian Sea. The amount of this renewable energy available in three basins of the ...
